Important Remark:

If RESTRICTED AREAS, DANGER AREAS, AIRSPACE C below FL 100, Airspace D (non-control zone) or active CONTROL ZONES (Airspace D) are affected and/or night drops in controlled airspace are planned, please submit application 8 week days in advance in writing to the competent DFS region. If a dropping zone should be additionally activated, the application shall be transmitted to the competent DFS unit (according to the operational directives) at least 5 hours prior to intended dropping operations. Otherwise, please transmit the application 48 hours at the latest (simplified application procedure) by telefax to the DFS International NOTAM Office, prior to commencing dropping operations, for the purpose of publishing a navigation warning. The NOTAM Office will reply only if they have a query.

Attention: On the date of the drop, please enquire at AIS as to possible additional activations or new establishments of restricted areas and danger areas (e. g. for military exercises)!

Only to be filled in by the DFS:
